'Developing sustainable research in Child and Adolescent Mental Health in Africa'

June 2013

Dear Colleagues,

We are delighted to invite you to submit applications/nominations for young child and adolescent mental health workers to attend the 2013 Helmut Remschmidt Research Seminar which will be held from 8-13 December 2013 in Stellenbosch, South Africa.

Background

The Helmut Remschmidt Research Seminar (HRRS) Series is a prestigious international seminar series organized under the auspices of the IACAPAP (International Association for Child and Adolescent Psychiatry and Allied Professions). The format is a 5-day residential research training workshop for about 20 young/emerging child and adolescent mental health researchers, that takes place in the country that will host the next IACAPAP Congress. The seminar combines teaching/discussion and mentored work on research projects. Topics include research design, presentation skills, review etc. The main purpose of the seminars is to inspire young and emerging researchers to do research in child and adolescent mental health. The product of the research workshops is submission of an abstract for the next IACAPAP conference.

The 2013 Helmut Remschmidt Research Seminar (HRRS)

The 2014 IACAPAP Congress will be held in Durban, the first ever IACAPAP meeting in Africa. The Congress Chair (Prof Brian Robertson, University of Cape Town) and the HRRS Chair (Prof Petrus de Vries, UCT) decided that the focus of the 2013 Helmut Remschmidt Research Seminar should be on emerging African researchers with a theme of 'Developing sustainable research in Child and Adolescent Mental Health in Africa'.

Dates and location of the Seminar

The seminar will be held from 8-13 December 2013 in Stellenbosch, South Africa. Stellenbosch is approximately 30 km from Cape Town.

Sponsorship

We are delighted that the University of Cape Town (UCT) will be sponsoring the accommodation and subsistence of participants, and staff from the UCT Research Office will act as mentors and trainers over the course of the week. In addition to South African Mentors, there will also be a panel of international experts, including Prof Remschmidt from Germany.
